## SUPPORTING PM INITIATIVES

# WHY CHOOSE SNS ACADEMY?

a *CBSE* School

As an Institution, we identify ourselves as "a fingerprint school" because we believe that, in each child lies an inherent individuality and talent which has to be nurtured carefully and brought to the forefront through the course of a child's school life.

## OUR LOGO SPEAKS

We recognize the need to shape young minds, and harness their potential to take on the challenges of a constantly changing world.

Orange, White, Blue, Yellow, Pink and Green Colours in our logo reflects our approach towards Life and Learning.

All the Colours in our logo symbolize the wholesome development of a Child.

## WHAT MAKES US DIFFERENT?

- Design Thinking Based Framework
- Build Products / Services through SNS Innovation Hub
- Learn to Connect with Industry
- Study among Top 10 School listed in Academic Insight
- Become Guinness World Record Breaker
- Learn to become a Design Thinker
- Practice Business StoryTelling
- Become IBM Certified AI / Data Scientist
- Solve Business Cases
- Propose Business Plan via Business Model Canvas
- Practice Enterprise Project Management

# SRI SNS CHARITABLE TRUST MEMBERS' MESSAGE

SNS Institutions are preferred by the students not only from all parts of Tamil Nadu, but also from the neighboring states as well. They are keen to invest in an education that prepares them to face challenges and competitions locally, nationally and globally.

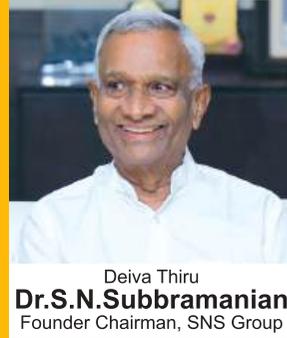

**Dr.S.Rajalakshmi**  
Chairman / Correspondent  
SNS Group

Surely, SNS has become a landmark in the cotton city. All our undergraduate and postgraduate programs are nationally recognized and accredited. Our efficient and experienced faculty members are committed to academic excellence and are technically sound in teaching.

Several excellent clubs in our institution offer students the chance to tackle new personal challenges and develop their talents. Our value-added education programs provide exhilarating and life-altering experiences. SNS Institutions had a humble beginning in the year 1999. Today, the institution has reached greater heights. More than 15,000 students have sought affordable education here, which has helped them prepare for a wide range of career options.

What they discover is a world of opportunities to explore new possibilities, ideas, and perspectives, preparing them for successful careers.

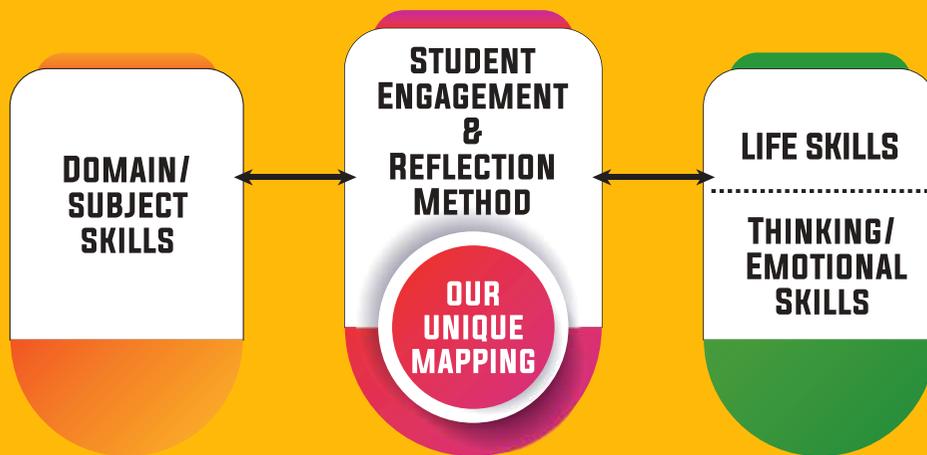

Deiva Thiru  
**Dr.S.N.Subbramanian**  
Founder Chairman, SNS Group

It is my pleasure to extend hearty greetings to our stakeholders. I feel glad to introduce to you SNS Group of Institutions promoted and run by Sri. SNS Charitable Trust, Coimbatore. Today all the Institutions stand as premier Colleges in Coimbatore and in Tamil Nadu with an excellent reputation. SNSCT is accredited by NBA / AICTE, New Delhi and

also accredited by NAAC / UGC, with "A++" Grade, recognized & approved by UGC as an Autonomous College. Dr.SNSRCAS Accredited by NAAC (Cycle-IV) with 'A+' Grade, recognized & approved by UGC as an Autonomous College. SNS Colleges aim at not only educating the young to be successful Engineers, Managers and Entrepreneurs but also to churn out socially responsible human beings of tomorrow. At SNS Institutions, we believe that success comes from a relentless focus on initiative, innovation and execution.

As an Autonomous and NAAC-accredited Institution, we have the academic flexibility to update our curriculum based on industry needs and to introduce innovations at various levels to meet global standards. Our institutional Vision and Mission statements are consistent and are mapped with Program Educational Objectives (PEOs), Program Outcomes (POs), and Course Outcomes (COs) for all programs, benefiting all our stakeholders.

**Nalin SNS**  
Technical Director  
SNS Group

SNS Institutions is an outstanding, academically rigorous institution that strives to offer its students the best education possible in a vibrant environment for learning and campus life. This environment supports students' academic progress and personal development. All members of the SNS community are committed to addressing students' concerns and interests.

Students are valued members of a cooperative academic community and are a primary focus of the institution. They are treated as individuals whose diverse backgrounds, goals, aspirations, needs, talents, and successes are welcomed and celebrated. Students are provided with the means and opportunities to freely probe, examine, debate issues and ideas, and actively pursue their educational goals. The rights and responsibilities of students are clearly articulated and supported.

Students participate in the institution's governance and influence goals set by academic units, faculty, and the administration. The institution helps students develop the means to succeed, inquire after truth, and contribute to society throughout their lifetimes.

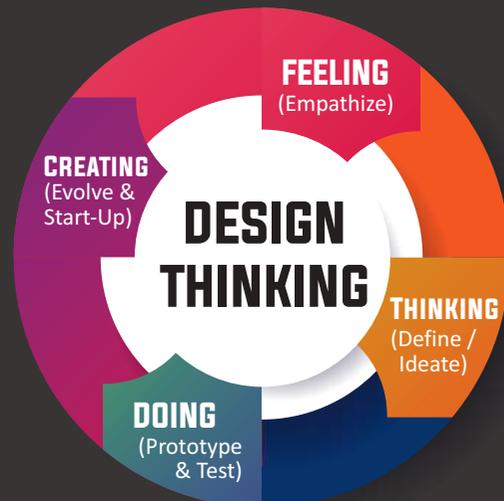

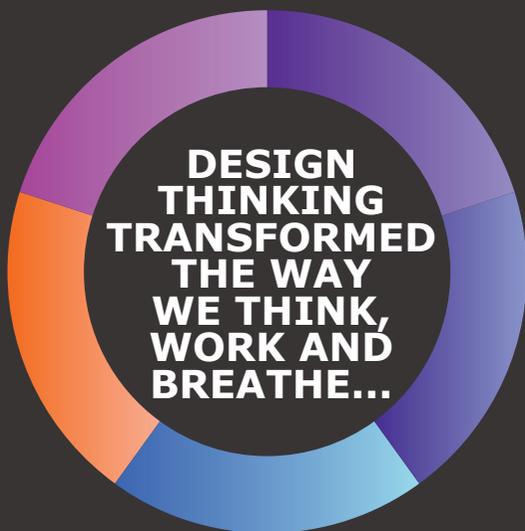

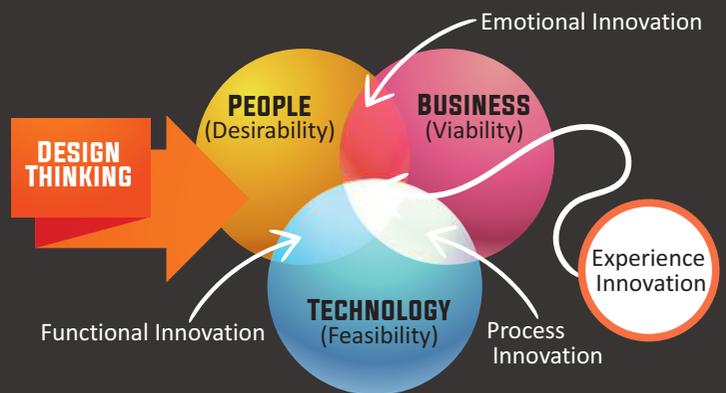

Quality teaching is not about teaching exceptionally talented students alone, but it's all about teaching all types of students and to produce exceptional work.

## UNLEASHING EMPATHY IN

## Design Thinkers

An Innovative Human-Centered approach that integrates the need of people, the possibilities of technology and the requirements for successful business.

ENHANCING BUSINESS CONNECTIONS AMONG INDUSTRIES & STUDENTS

# DESIGN THINKING @ EDUCATION SPACE

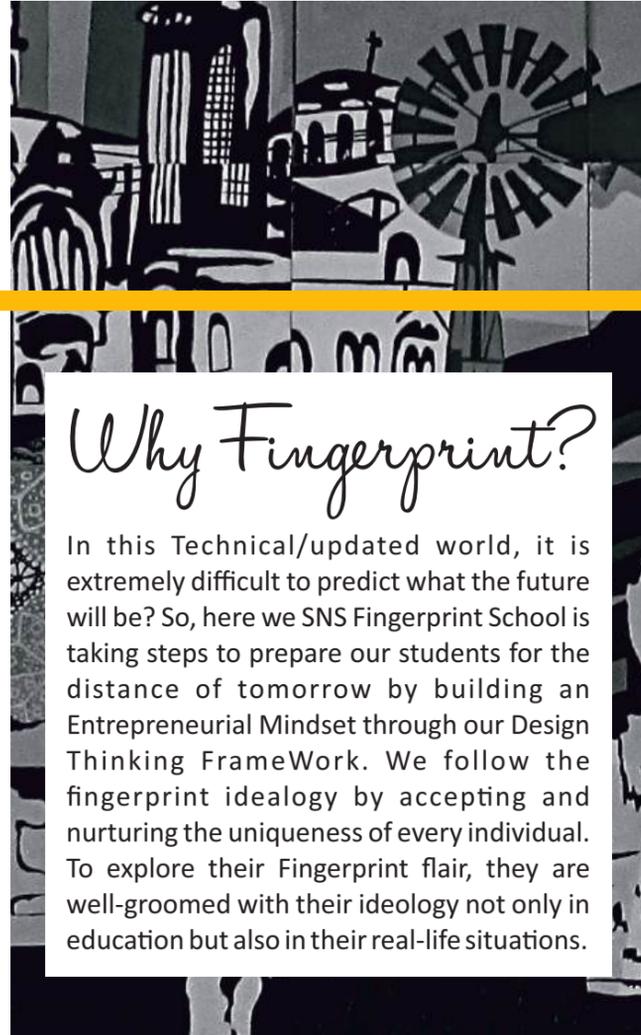

We, the SNS Group, are an educational institution - for students of different degrees - that follows a different aspect of education! What we ambassador is that students' education should be executed through innovative methods and being able to be applied directly to the society and making the student highly qualified!

For us, learning is not just a task but a holistic experience that we strive towards every day. At the end of this journey, we hope that you are able to harness the best aspects of yourself that lasts with you for a lifetime.

## Redesigning Thoughts

Think about some of the most important investments of our world. The car, the mobile, the lamp... are all the results of Design Thinking (DT). People, inventors, and entrepreneurs utilizing DT get into the problems our society faces, analyze them, and provide us with the means that make everyone's life easier.

Design Thinking is the method through which people make our world better... and it is not taught in school. So, think about training and teaching students on this method... training the gen Z to deal with the modern problems of society and come up with new solutions! This is exactly what we, SNS SPINE, pursue to achieve, by educating students on Design Thinking and making them capable professionals

### Why Fingerprint?

In this Technical/updated world, it is extremely difficult to predict what the future will be? So, here we SNS Fingerprint School is taking steps to prepare our students for the distance of tomorrow by building an Entrepreneurial Mindset through our Design Thinking FrameWork. We follow the fingerprint ideology by accepting and nurturing the uniqueness of every individual. To explore their Fingerprint flair, they are well-groomed with their ideology not only in education but also in their real-life situations.

## 5 Pillars Of Edu' Success

We believe that the success behind our educational tactics is due to our five core methodologies in the changing world landscape. Firstly, it's about acquiring knowledge and we do this by familiarising children with the relevant issues of today. This is a philosophical process that comes in-tangentwith practical development. In essence, you would not only learn about conceptual frameworks but also hone skill sets that can be applied later in life. To name a few: social skills, emotional skills, interactive skills, and so on.

Furthermore, each individual mind is capable of limitless endeavours and we term it as the centre of creativity. With training and inculcation of creative thinking, our students are able to implement the right unique solutions in varied situations. We teach our students to recognize themselves not in isolation but as an integral part of a collectivistic society. A strong culture of giving back to society is a part of our social commitment.

## Emerging Tech

Our Institutions provide the students with the 7modern industries that technology can be implicated too. Getting an opportunity to apply emerging technologies on integral industry vertical such as Smart City/Manufacturing, Health Care, Agriculture & Food Technology, Automobile, Aerospace & Defence, Retail (FMCG), Real-Estate, Entertainment & Finance (BFSI) and Power/ Energy. Students don't need to execute any kind of research like market research, while they are also provided the 7 thrust areas of technologies. As we have witnessed, Robotics & Automation, AR / VR / MetaVerse / Gaming & Digital Twins, Data Science / AI / ML, Internet of Things, Communication and Growth Tech, Additive Manufacturing(3D Printing), Low Code Development have become the centre point of emanating data and trends in contemporary times. What does this mean? It essentially means that with the right training, you can grasp the skills of the future! We provide e students with accurate and tailored guidance for careers that benefit both the student's professional life and consequently the society!

## Life Style Beyond Class

To make the educational experience of our students inclusive and participative in multiple ways. We strive to connect the industry world of success. We don't relegate our approach to only teaching on a surface level, rather we introduce students to networks where they interact with people who share the same level of ambitions and make this lifestyle completely friendly to them! It's all about who you interact with!

The final takeaway is that your educational journey is our journey as well. We invite you to share our passion for education and self-development with us by joining our institution! Our approach is multi-layered aiming to encapsulate as much of the real-world as it can. Immerse yourself in this experience and leave out with a refined version of yourself equipped with a mind set that is brimming with endless opportunities and ideas!

## NOTABLE CLUBS & FACILITIES

### Nourishmentpet

A sound mind in a sound body is nurtured through recommended meals served with proper table etiquette, while students learn nutritional values and the importance of a balanced diet—all within a well-equipped, conducive environment imbued with care and warmth.

Delight in Every Bite

### Destination Determined

The tyre of SNS vans tirelessly travel to reach your destination making the children sit with safety. The parents can be in their easy chairs using GPRS & RFID to track the location of wards

Secure GPS  
Transport

### Think Different

Place for Holistic Preparation (PHP) to help children learn the syntax and semantics of language, enabling them to see the world innovatively and excel in future laboratories.

## HERE'S WHAT PARENTS SAY ABOUT US

### Future-Ready Education

SNS Academy stands out for its emphasis on holistic and future-ready education. The blend of technology, innovative teaching methods, and co-curricular activities ensures that my child is well-prepared for the challenges of the modern world. My children Akash of grade XII and Adivika V A has developed confidence and leadership skills through their innovative programs. We're grateful for the nurturing and enriching environment provided by the school for our children."

*Best Wishes*  
**Nagaanitha Radhakrishnan**

*Best Wishes*  
**Thara Rajan**

Moving countries and adapting to a new curriculum was a significant change for our family, but the support and encouragement provided by the staff and students at SNS Academy have made it an incredibly positive journey.

At SNS Academy, the inclusive environment, teaching methods, and extracurricular activities have been particularly impressive. It is clear that this school is not only dedicated to academic excellence but also to nurturing well-rounded individuals.

Thank you for providing an environment where Tamarah and Ayudh feel excited and supported in their learning.

*Best Wishes*  
*Naveen Kumar Murugesan*

As a parent of a Shreshta studying 6th-grade in SNS Academy, I am immensely grateful for nurturing and enriching environment the school provides.

We have witnessed the transformation in her academic progress, confidence and overall development.

SNS Academy fosters a love of learning & equips students with Design Thinking: Innovative problem-solving through empathy, ideation and prototyping.

Entrepreneurial Mind-set: Cultivates creativity and a growth mind-set for future success

SNS Academy aims to equip students with the essential skills and mind-sets they need to thrive in an ever-changing world. They are not only learning academic concepts but also developing crucial life skills that will benefit them throughout their personal and professional journeys.

"In SNS Academy kids are not just taught to score marks but they are being trained to face real world challenges, ignite entrepreneurial mindset and mould responsible citizens. I'm happy that both my daughters are studying here. I like its Fingerprint approach towards students as each kid is different with unique talents. It is the responsibility of the school to identify the hidden talent, improve and exhibit. I think SNS Academy is doing its part fairly well. BMC, ARP/BOG, SAT, Product Patents, Spectrum are few of its innovative programs."
